Summary:

Reliably efficient and diverse engineering professional with over 10 years of experience in design and implementation of software, from low-level firmware to real-time embedded software to distributed cloud services. Strong design skills in C, C++, C#, Java, Scala. Proficient in object oriented design, concurrency, multithreading, and networking. Experience in establishing and leading software development teams, both local and remote. A strong track record of managing processes and progress to meet customer requirements and schedules.

Skills:

- Device drivers
- Embedded systems and software
- Software engineering
- Object oriented design
- Linux
- RTOS
- Multithreading
- Distributed systems
- C, C++
- Software design
- Firmware
- Soc
- Cloud computing
- Debugging
- ThreadX
- USB
- System architecture
- Mips
- Digital signal processors
- Networking
- Project management
- Multimedia
- ASIC
- Embedded Linux
- Image processing
- Program management
- Consumer electronics

Experience:

**\*\*Software Engineer\*\***

Facebook, Menlo Park, CA (2015 - Present)

- Collaborated on the design and implementation of software for various projects within the company.
- Utilized C++, Linux, and networking to develop distributed systems.
- Led software development teams, both local and remote.
- Managed processes and progress to meet customer requirements and schedules.

**\*\*Education and Certifications:\*\***

[Bachelor's Degree in Computer Science or related field] (Year of Graduation)

**\*\*Languages:\*\***

English (Fluent), [Optional: Other languages]

**\*\*Certifications:\*\***

[List any relevant certifications, such as Microsoft Certified Solutions Developer (MCSO)]

**\*\*Projects:\*\***

[List any personal or open-source projects you have worked on, including the technology stack and a brief description of the project.]

**\*\*References:\*\***

Available upon request.
