****Summary:****

Senior Software Engineering Generalist with over 20 years of experience in various domains including iOS (Objective-C and Swift), web applications (Ruby on Rails & J2EE), software engineering processes, automated testing, systems administration, security, networking, databases, internationalization, DevOps, and cloud technology (AWS primarily). Passionate about quality software and software engineering processes. Proficient in Agile methodologies, Perl, Ruby on Rails, Cloud Computing, Javascript, Git, Github, Objective C, iOS Development, System Administration, Network Engineering, SQL, Product Management, Ruby, Software Design, Selenium, TDD, Nginx, HTML, PostgreSQL, LDAP, SSL, SSL Certificates, SMTP, Computer Security, Amazon Web Services, IOS, jQuery, MySQL, Databases, Scalability, XML, Mobile Applications (Android and iOS), Swift, Node.js, Representational State Transfer, React Native, Docker, Docker Compose, Android Studio, Devops, Security Engineering, PKI, PKCS, Kubernetes, Google Cloud Platform, Google Kubernetes Engine, Ansible.

****Skills:****

- Agile methodologies
- Perl
- Ruby on Rails
- Cloud Computing
- Software Engineering
- Web Applications
- Javascript
- Software Development
- Git
- Github
- Objective C
- iOS Development
- System Administration
- Network Engineering
- SQL
- Product Management
- Ruby
- Software Design
- Selenium
- Selenium Testing
- TDD
- Nginx
- HTML
- PostgreSQL
- LDAP
- SSL
- SSL Certificates
- SMTP
- Computer Security
- Amazon Web Services
- IOS
- JQuery
- MySQL
- Databases
- Scalability
- XML
- Mobile Applications (Android and iOS)
- Swift
- Node.js
- Representational State Transfer

- React Native
- Docker
- Docker Compose
- Android Studio
- Devops
- Security Engineering
- PKI
- PKCS
- Kubernetes
- Google Cloud Platform
- Google Kubernetes Engine
- Ansible

****Work Experience:****

Technical Staff Engineer

whisper.ai | San Francisco, CA, USA | Oct 2019 - Present

- Implementing and maintaining software solutions using various technologies such as Perl, Ruby on Rails, Objective C, Swift, SQL, and AWS.
- Collaborating with cross-functional teams to design, develop, test, and deploy high-quality software products.
- Utilizing Agile methodologies to prioritize tasks and deliver projects on time.
- Participating in code reviews and ensuring adherence to coding standards and best practices.

****Education:****

[Bachelor's Degree] [Field of Study] [University Name], [City, State] |
[Graduation Year]

- Taught feminist theory as a Teaching Assistant in college
- Ran a non-profit for LGBT student groups

****Certifications:****

- Certified Kubernetes Administrator (CKA)
- AWS Certified DevOps Engineer – Professional

****Languages:****

- English (Fluent)

****Interests:****

- Test Driven Development
- Feminism
- Health and Nutrition
- Politics
- Sci Fi and Fantasy Reading
- Education
- Environment
- Financial Management
- Software Quality
- Science and Technology
- Snorkeling and Scuba Diving
- Human Rights
- Professional
- LGBT Issues
- Video Games
