Summary:
A highly skilled Unix systems administrator, web developer, and systems engineer
with over 20 years of experience in the information technology industry and a
strong background in the fine art world. Proficient in various technologies
including Unix systems administration, shell scripting, PHP (OOP and flat), Ruby
(on Rails and off), MySQL, MongoDB, Redis, Elasticsearch, JavaScript, JSON, CSS,
HTML, dHTML, XHTML, XML, Ubuntu, RedHat, CentOS, Solaris, and more. Comfortable
working on Ubuntu Linux and Mac OS X platforms, with deep experience in various
Unix environments dating back to the 1990s.
